Portfolio: my-web-portfolio-silk.vercel.app | GitHub: github.com/light2tech/my-web-portfolio

PROFESSIONAL PROFILE

Creative and adaptable digital professional with approximately two years of experience across graphic design, web design, and digital media support. Uses HTML and CSS to build web pages, JavaScript for foundational web interactivity, and Canva to create visual content for events and online communication. Experience supporting publicity and media activities with NIFES Light Media at Taraba State University. Interested in helping businesses and organizations communicate clearly, strengthen their online presence, and solve practical problems through technology.

KEY SKILLS

Web Design	HTML, CSS, JavaScript fundamentals, page layout, responsive design basics
Graphic Design	Canva, flyers, event banners, certificates, social media graphics, design layouts
Social Media & Digital Media	Digital publicity, content preparation, page support, audience engagement, Facebook Live support
Technical Support	Online registration assistance, JAMB-related processes, school registration, basic troubleshooting

EXPERIENCE

Graphic Design & Digital Media Support | NIFES Light Media | *Taraba State University, Jalingo*

- Created graphics such as programme flyers, event banners, certificates, and other publicity materials for fellowship activities.
- Supported digital publicity and online outreach for fellowship programmes.
- Participated in graphics design tutorials and supported Facebook Live streaming activities.
- Worked with a growing media unit and contributed to its efforts to improve digital communication.

Web Design / Front-End Development | Personal Projects

- Built a personal portfolio website using web technologies to present skills, experience, and projects.
- Practised structuring web pages with HTML, styling with CSS, and learning JavaScript fundamentals.
- Focused on clear page layouts and user-friendly presentation.

Online Registration & Technical Assistance | Independent Experience

- Assisted students with JAMB-related processes, school registration, and navigating online services.
- Helped users address basic issues encountered while using online platforms.
